

## Harbour entrance

Some Rhine boaters are a little bit afraid of our harbour entrance. You don't have to - we'll tell you here how to enter quite easily to our marina.

You will reach it on the left bank of the Rhine at km 442.1. Even from afar our clubhouse on stilts serves you as orientation aid. First of all entrance width seems to be quite narrow, but in reality it is 10m wide.

We have the following tips ready for you:

- Always drive against the drift - never try driving with Rhine stream current directly into the entry. So if you are travelling downstream pass it and turn back
- Since fairway here runs directly on the shore, please pay attention to commercial ships
- With a distance of approx. 10m parallel to the shore you drive back upstream In the middle of the entrance put the helm starboard and drive in with motor power. Depending on water level your boat will be drawn to larboard. So it is important to have sufficient speed and rudder effect.
- To the gas station you keep to the left immediately, otherwise you moore e.g. at the head bridge.

Of course you drive, as everywhere, at your own risk and we don't take over any guarantee despite this control aids!

Welcome to our club.
